

WALTON

PRE-PREPARATORY SCHOOL AND NURSERY

31st January 2020

Dear Parents

I would like to draw your attention to the precautions we are taking against the Novel Coronavirus outbreak, which has now spread beyond China and today has arrived in the UK.

We are monitoring the situation as it unfolds, following the advice of the World Health Organisation and Public Health England, including their recommended 2-week quarantine period.

The latest updates from the NHS can be found on this website:

www.nhs.uk/conditions/wyhan-novel-cornoavirus

In order to best protect our whole school community, I would request that you follow the Foreign and Commonwealth Office advice not to travel to mainland China and Hong Kong, unless your travel is essential.

If you do travel to, or have contact with anyone who has flown in from China or any affected areas, please inform me immediately.

The wellbeing of our school community is particularly important at this time. I thank you for your support and I will update you further, if official advice changes.

Yours sincerely

Chantelle McLaughlan
Matron
